COMPACT PRINT UNIT POTTA VAC-CROWN

MASCOPRINT DEVELOPMENTS LIMITED have been designing and building screen printing equipment here in the UK since 1972. The Mascoprint range of screen-printing presses comprises primarily of semi-automatic and automated machinery used for branding and decorating products as part of a manufacturing process.

The company works with its clients to provide printing solutions for many and varied applications from flat sheet material through to 3 dimensional parts including cylindrical, oval and conical products.

The **Compact Print Unit** has been developed to fulfil the requirement for an accurate manual screen print table for low volume production, product sampling and education purposes. This unit is supplied with an X - Y adjustable vacuum table and integral pump with an on / off slide action. The print head is counter balanced with four corner height adjustment and can be set to accommodate a variety of screen frame sizes.

FEATURES

- Integral powerful vacuum motor.
- Positive, precise mechanism.
- Powerful vacuum motor built into machine.
- Tidy, unencumbered design.
- Quiet running.
- Neat appearance
- Durable attractive finish.

TECHNICAL DATA

Vacuum area:	535mm x 405mm (21" x 16")
Height adjustment:	0mm x 38mm (0" x 1.5")
Max. frame size:	700mm x 585mm (27.5" x 23")
Frame grip range:	25mm x 38mm (1" x 1 1/2")
Overall width:	790mm (31")
Overall depth:	760mm (30")
Overall height:	305mm (12") frame down
Electrics:	220 - 240V 50Hz 1ph
